Antipsychotic Medications in Pregnancy

Are you pregnant and taking antipsychotic medications?

Would you be interested in taking a part in an observational research study evaluating the safety of antipsychotic medications for mothers and babies during pregnancy and breastfeeding?

If so, we would love to hear from you.

Who can join the study?

- Women who are taking, or have taken, psychiatric medication during pregnancy
- Women who are pregnant or who have had a baby in the last 12 months
- Women who reside in Australia
- Women who are at least 18 years old

Location

Women will be seen in the Monash Alfred Perinatal Psychiatry Clinic, which is located on the 4th floor of Monash Alfred Psychiatry Research Centre at 607 St Kilda Road, or contacted by telephone. There are no out-of-pocket expenses for women to be part of this study.

We look forward to hearing from you!
